

Board of Education

The Board Convenes the Community

As trustee for the community, the Board will maintain an ongoing, bi-directional conversation with the entire community to detect the community's diverse desires and aspirations for the District. This will be accomplished through:

- **Periodic surveys**
- **Strategic planning processes**
- **Community input at board meetings**
- **Meetings with a broad cross section of the community, at least once per year, explicitly designed to understand the community's educational aspirations, desires and priorities and to hear the communities' assessment of educational value being received for the cost (tax rate).**

CROSS REF: 2:10

ADOPTED: March 21, 2006
